Fundraising Strategy: Small Contributions, Big Impact

- **Daily Contributions:** Collecting 20 Rupees daily offers a simple and sustainable way to raise funds.
- **Consistent Impact:** Small, regular donations build up over time, creating significant financial support.
- **Community Effect:** When multiplied across many contributors, 20 Rupees can generate substantial funds for the cause.
- **Efficient Fundraising:** Regular, modest contributions collectively make a meaningful difference without burdening donors.

- **Monthly Impact:** Over a year, daily contributions amount to 7,200 Rupees.
- **Annual Growth:** Consistent donations create a significant annual fund of 7,200 Rupees per person.
- **Community Effect:** With many donors, this sum grows exponentially, leading to substantial collective support.
- **Long-Term Benefit:** Regular small donations accumulate into a meaningful fund for impactful projects.

Charity in Islam: A Sacred Duty

- **Charity as a Loan to Allah (SWT)**

"For those who give in charity, men and women, and loan to Allah a beautiful loan, it shall be increased manifold (to their credit), and they shall have (besides) a liberal reward."

57:18

- **The Prophet Muhammad (ﷺ) said:**

"Charity does not decrease wealth, no one forgives another except that Allah increases his honor, and no one humbles himself for the sake of Allah except that Allah raises his status."

(Sahih Muslim 2588)

Bridging the Gap: The Role of the Muslim Ummah

- **Ummah's Unity:** The Muslim Ummah is like a single body; unity and mutual support are essential.
- **Widening Wealth Gap:** Economic disparities are increasing within the Muslim community.
- **Impact of Inequality:** This wealth gap weakens the collective strength of the Ummah.

- **Charity as a Solution:** Charity helps bridge the gap and strengthen the Ummah.

Current Statistics: Muslim Demography and Economic Needs

- **Lowest Asset and Consumption Levels:** Muslims have the lowest average asset and consumption levels among major religious groups in India, at 79% and 87.9% of the all-India average, respectively.
- **Among the Poor:** Muslims are represented in the bottom half of India's population by wealth, outnumbering Hindus in the lower economic deciles..
- **Limited Employment Opportunities:** Muslims, especially non-SC/ST/OBC groups, have a low share in regular and government jobs, contributing to their economic backwardness.

- **Foundation for Livelihood:** Meeting these survival needs is a prerequisite for individuals to focus on building a sustainable livelihood and improving their circumstances.

Empowering Through Sustainable Livelihoods

What should be the Group expansion strategy?

Shall we conduct monthly meetings to unite the group, presenting the achievements of the past month and providing an overview of upcoming actions?

As Siraj Bhai suggested following up every 6 months or 1 year, should we implement this approach when we launch the white-collar livelihood support, Insha Allah or it shall be done for blue collar as well?
